

The Yorkshire Philosophical Society presents

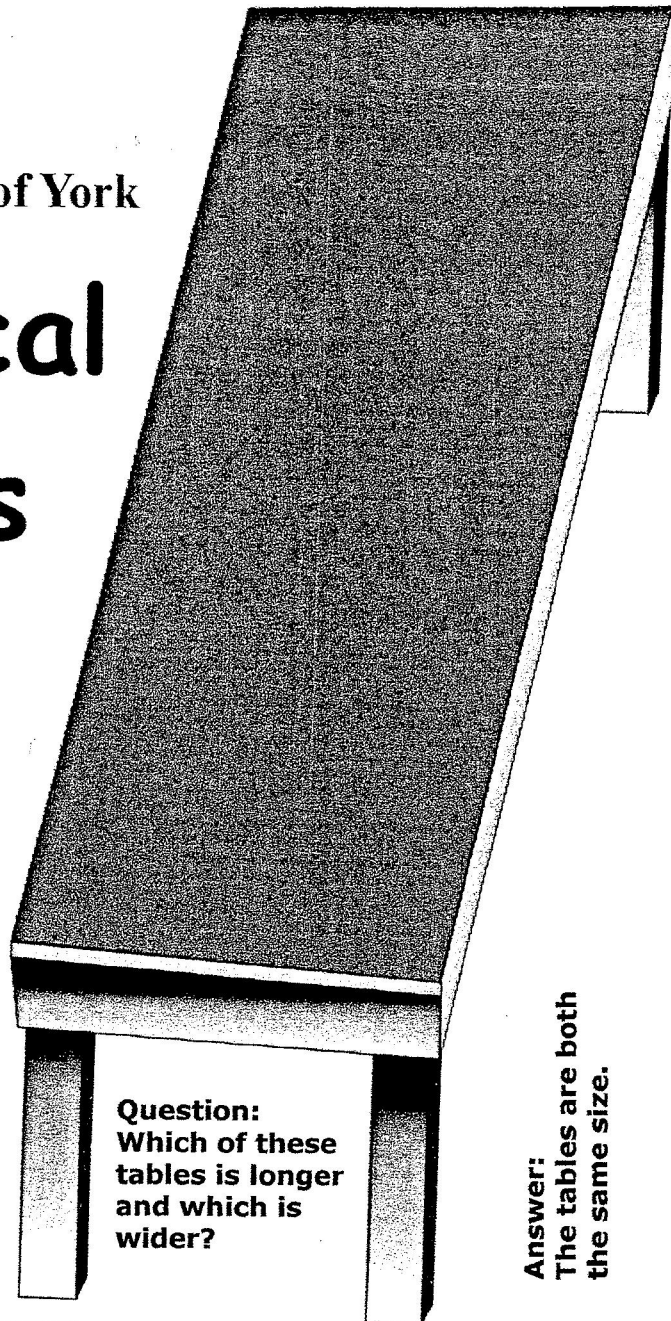

A lecture by Dr Peter Thompson,
Department of Psychology, University of York

What do optical illusions tell us about us?

Optical illusions are much more than amusing pictures that trick the eye. Come along and find out what they reveal about how our eyes and brains process the visual world. The lecture will be lavishly illustrated with pictures and demonstrations.

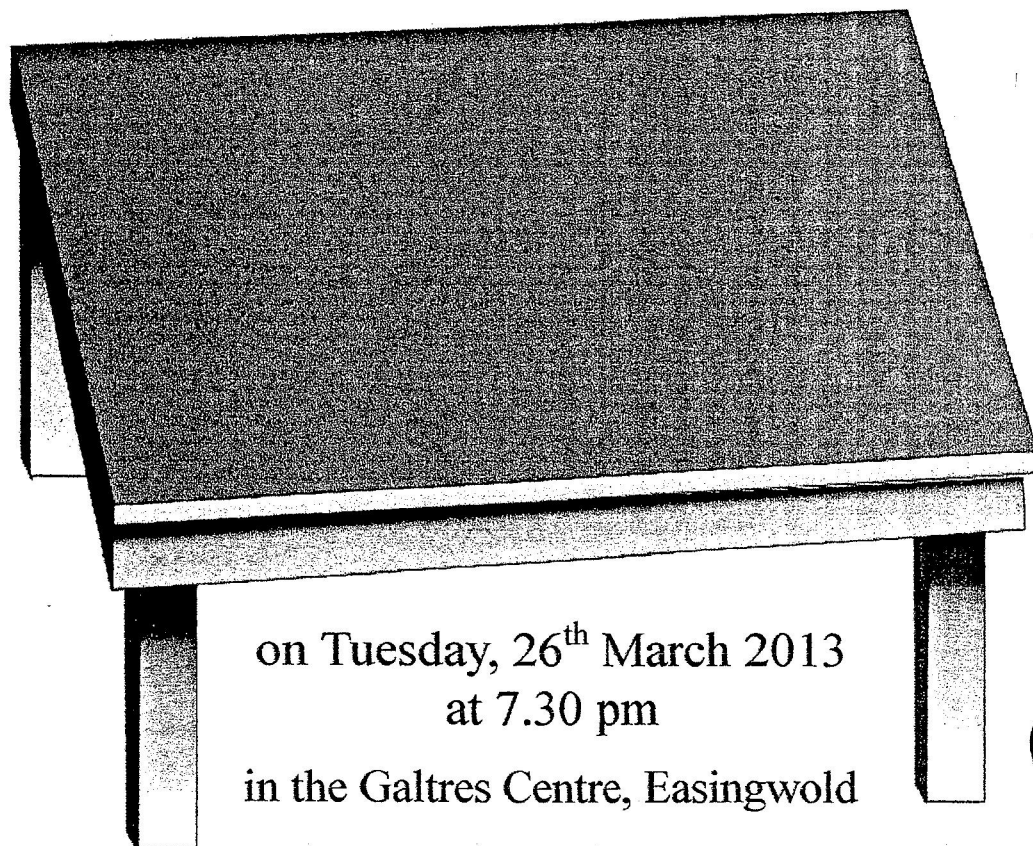

Fun for all ages

Admission Free - No advance booking

Question:
Which of these
tables is longer
and which is
wider?

Answer:
The tables are both
the same size.

on Tuesday, 26th March 2013
at 7.30 pm

in the Galtres Centre, Easingwold
