Yorkshire Philosophical Society

Index to articles and obituaries in Annual Reports 1823 - 1995

This uploaded version of the Index to articles and obituaries was compiled, in 2021 from several separate original files, created in 1997. In consequence, page layouts and tabulations required adjustment. Pagination of this edition does not, therefore, match that of the original edition.

Yorkshire Philosophical Society

Index to articles and obituaries in
Annual Reports 1823 - 1995

Introduction

The Annual Reports of the Yorkshire Philosophical Society have been published since 1823 and record the activities of the Society and of the museum which it initiated, now the Yorkshire Museum. A complete set is available for consultation in the Society’s office at the Lodge, Museum Gardens, York YO1 2DR.

The Annual Report for 1823 sets out the objectives of the Society (primarily the promotion of science in the Yorkshire region), its laws, a report of its activities for the year, a list of donations, the regulations and catalogues of the library, the patrons, officers, council members, curators and a general list of members. Between 1847 and 1854 scientific articles were published in a separate volume - Proceedings of the Yorkshire Philosophical Society. A selection from papers relating to the Antiquities and Natural History of Yorkshire read at the monthly meetings of the Society from 1847-1854. From 1855 Communications to the Monthly Meetings were included as part of the Annual Reports. Subsequently the Annual Reports also included invited articles from other specialists.

This reference list gives details of the research articles by author and also indexed by subject. Papers are cross referenced in as many subject categories as appropriate to their contents. Articles which describe donations to the Society are also referenced under the Yorkshire Museum where many of the items will now be held. Some items were sold off to raise funds and some others, for example textiles, were passed onto the Castle Museum. The subject categories are summarised on pages 24 & 25. The date given is that of the calendar year covered by the Annual Report but, as the Reports are usually published in the spring of the following year, it should be noted that the year of publication will be one year later. In some cases the format of the titles of articles has been rationalised in order to aid the modern reader: capital letters have been retained only for proper names and where necessary species names have been adjusted to suit the current convention that they start with a lower case letter. Those readers
wishing to quote articles exactly as originally presented are advised to consult the original publication.

A listing of obituaries has also been attached. This includes those individuals for whom some details are given of their contribution to the Society or to scientific or historical research. The obituaries are included in the Annual Report covering the year in which the individual died, unless otherwise indicated, with the same proviso, as explained above, about the following year of publication.

Those interested in the early history of the Society are recommended to read *Philosophers and Provincials; the Yorkshire Philosophical Society from 1822 to 1844* by A.D. Orange. Additional information on the Museum is published in *The History of the Yorkshire Museum and its Geological Collections* by Barbara J. Pyrah. Both of these publications are available from the Society as are copies of the Annual Reports for most years. Further details of these and other publications of the Society are given on page 4.

This index does not include details of the regular items which occur in the Annual Reports in most years. These include:

- scientific, educational and publication activities of the Society;
- financial report for the Society;
- an annual report from the Yorkshire Museum, including the Museum Gardens and summary finances;
- reports from associated groups, for the years in which they were active, including the York Excavation Group (1966 to present), the York and District Field Naturalist Society (1968 to 1992) and the Woodland History Group (1982 to present); and
- weather reports for the region.

Summaries of the archaeological work being carried out in York have been included in the Annual Report from 1963 to 1986. These were kindly written by:

- Mr L. Peter Wenham, Mr J.E. Williams and Mr Eric Gee for 1963;
- Mr Herman Ramm for the years 1964 to 1966;
- The York Excavation Group for 1967-71 and
- Dr Peter Addyman for the years 1972 to 1986.

The Yorkshire Museum was financed and administered by the Society until 1961 when it was donated to the City of York. Details of the transfer agreement made

Every effort has been made to provide a reliable and accessible bibliography. The Honorary Editor takes responsibility for any mistakes and would be pleased to learn about them to aid the accurate production of updated issues of the bibliography.

I would like to thank fellow members of the YPS, including Dr Ronald Butler, Mr Graham Fulton, Mr John Hampshire and Mrs Jennifer Kaner; Mr Paul Howard and Mr Paul Ensom of the Yorkshire Museum; Dr Peter Addyman and Mr David Brinklow of the York Archaeological Trust; Mr Bernard Barr of the Minster Library and Mr Hugh Murray who have all made constructive suggestions on the format and contents of this index. Especial thanks are also due to Dr Peter Hogarth for his assistance with its preparation.

The Society is most grateful to the Sheldon Memorial Trust for a grant in support of this publication.

Dr Sylvia Hogarth
Honorary Editor
1997.
Publications

Copies of back numbers of the Society's Annual Reports from 1825 to 1996 are still available except for the years 1826, 1829, 1831, 1843, 1856, 1858, 1870, 1871, 1872, 1873, 1875, 1881, 1883, 1893, 1898, 1911, 1912, 1914, 1915, 1918, 1961 and 1969. The price for back numbers, is £1.50 per copy plus postage.

This Index to the Annual Reports may be purchased at a cost of

The following publications are also for sale:

**Philosophers and Provincials; The Yorkshire Philosophical Society from 1822 to 1844** by A.D. Orange. Price 45p per copy (30p to Members).

**The Arras Culture** by I.M. Stead. Price £2.00 per copy (£1.25 to Members).

**York Observatory** Leaflet about the Observatory in the Museum Gardens, York. Price 10p per copy.

**The History of the Yorkshire Museum and its Geological Collections** by Barbara J. Pyrah. Price £3.00 to Members.

**St Mary's Abbey and the City of York** by Dr Jane Burton. Reprint from the Annual Report of the Society 1988. Price 75p (55p to Members)

**Audubon Greeting Cards** mixed packs of six cards. Price £1.05

These may be obtained from: The Clerk to the Society, The Lodge, Museum Gardens, York YO1 2DR.
